Dear Doctor Lederberg,

several colleagues from Western Germany told me,
that you are doing some important work on the
nature of L-forms. I am very interested in these
problems, and I would greatly appreciate receiving
your publications on bacterial L-forms.

Under separate cover I am sending you some of my
papers dealing with the same respectively with
related subjects.

Thanking you for your kindness, I am,

Sincerely yours

(Dr. Taubeneck)
